

## **Addendum to Streatley Hill Pre-schools Policies (October 2020)**

### Safeguarding policy

We are aware that extra pressures may have been put onto our families during the Covid-19 pandemic and lockdown measures, this could include mental health and wellbeing, health, financial and bereavement. Staff will keep a close eye on children and their families to see if extra support is needed and follow procedures for safeguarding.

### Online safety

If online learning is used when children cannot attend our setting due to closing in the event of a lockdown or the Pre-school bubble self-isolating, a risk assessment is completed outlining expectations and safety guidance. Parents and Carers will be sent the risk assessment before online learning begins.
